

**Over 10 Million**  
Shipments tracked per month

## ShipMatrix Invoice Reader

Shipping your packages from point A. to point B. sounds easy, right? When you ship thousands of packages week with dozens of delivery surcharges, it becomes impossible for any one person to manage the complex financial details. Do you find it difficult to read and analyze your electronic invoices? You're not the only one! What if you could read and settle your parcel carrier invoices in half the time, while enhancing your ability to manage costs? ShipMatrix Invoice Readers are your solution.

## Reduce Costs with Streamlined Invoice Analytics

Developed by the parcel industry experts at ShipMatrix, our Invoice Readers empower shippers like you to manage electronic invoices more effectively, allowing you to realize the full benefits of this modern invoicing method. With ShipMatrix Invoice Readers, you can spend more time on shipping cost reduction and less time on administration.

## Simple Invoice Settlement:

ShipMatrix Invoice Reader eliminates the concerns about electronic invoicing through a sophisticated process that systematically imports, reviews and verifies your carrier's electronic invoices. The user-friendly interface allows you to manage the reconciliation process of refunds owed to you, such as guaranteed service refunds, lost or damaged package refunds, or packages billed, not shipped quickly and accurately. With ShipMatrix Invoice Reader, you can quickly and easily perform the following tasks:

- Import electronic invoices
- Print out a bill with total due
- Create an EDI remittance file
- Perform comprehensive reporting
- Reconcile refund claims
- Assign general ledger coding
- Perform cost allocation
- Manage and validate carrier contract rates

## Drastically Reduce Accessorial Charges

ShipMatrix Invoice Reader comes pre-packaged with a comprehensive set of reporting tools that enables you to quickly review all of your shipping location invoices collectively, identify avoidable charges, and take corrective action. The combination of ShipMatrix' industry expertise and our powerful proprietary software not only allows us to pinpoint recoverable costs, but what YOU can do to minimize them. By making it simpler to identify and correct avoidable costs, such as address corrections and rural zip code surcharges, ShipMatrix Invoice Reader enables you to run a leaner shipping operation.

## Features

- **Do-it-yourself Invoice Reporting Software:** You know your business best, why rely on someone else? With ShipMatrix Invoice Readers, you, the shipper, have full access to invoice data. We put the control of your business back into your hands.
- **Flexibility:** Our Invoice Readers can be delivered in three ways to meet your company needs: as a desktop application, web-based, and a combination desktop/data warehoused web-based business intelligence system. In addition, the Invoice Readers are fully compatible with our MyShipMatrix product and can be delivered via MyShipMatrix.
- **Standardized Reports:** Consistency is key to accurately measuring performance: both yours and your carrier's. ShipMatrix Invoice Readers provide the following standard reports to help you benchmark efficiently:
  - Invoice summary reports
  - Controllable cost reports including address corrections and chargebacks
  - Accessorial charge reports by type/charge code
  - Shipping profile reports giving you package statistics for further analysis
- **Customized Reporting Options:** You can dictate who has access to your data and the format in which they can receive it. We offer the following reporting options:
  - Rate verification reporting and analysis
  - 3rd party logistics and multi-customer reporting
  - Shipper portal for web analytics reporting
  - Custom reporting and data transformation services
- **Data you can Trust:** ShipMatrix was the first company to license desktop software to shippers and enable them to independently benchmark carrier service performance. We have 10 years of experience helping customers like you streamline their shipping operations. After tracking over 100 million packages and analyzing \$3 billion in invoices, we know the business like nobody else...and we want to help you. Call us today for more information!
